SUMMARY

Results-driven Software Engineer with expertise in building highly responsive, scalable web applications and analyzing complex data systems. Proficient in modern JavaScript ecosystems (React, Node.js), Python, SQL, and REST API architecture. Demonstrated success in spearheading full-lifecycle development and modernizing legacy systems to drive performance and user engagement. Actively seeking impactful roles in software engineering, full-stack development, data analysis, and systems engineering.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), Python, SQL, Java, PHP, HTML5, CSS3
Frontend:	React, Tailwind CSS, Responsive Design
Backend & Databases:	Node.js, Express.js, MySQL, MongoDB, RESTful APIs
Tools:	Git, GitHub, npm, Postman, VS Code

EXPERIENCE

Software Engineering Intern | Independent Restaurant Client **January 2026 - Present**

UAlbany SPEED Program

- Spearheaded the end-to-end modernization of a static HTML/CSS web presence into a high-performance, dynamic React application.
- Architected robust front-end state management to seamlessly synchronize digital menu interfaces with backend database systems.
- Engineered responsive, mobile-first UI components utilizing Tailwind CSS, ensuring optimal cross-device performance and visual consistency.

Web Development Intern | Medical Services Company **August 2025 - December 2025**

UAlbany SPEED Program

- Directed the comprehensive architectural redesign of the corporate website to align with modern UI/UX standards.
- Developed and deployed modular, responsive front-end components leveraging JavaScript, HTML, and CSS.
- Collaborated directly with cross-functional stakeholders to translate complex business requirements into scalable technical solutions.

Web Development Intern | Independent Client**January 2025 - May 2025***UAlbany SPEED Program*

- Overhauled legacy application infrastructure by implementing robust PHP-driven backend solutions.
- Optimized frontend architectures, markedly improving responsiveness, render times, and overall system performance metrics.
- Executed systematic debugging protocols and maintained rigorous code integrity across the application lifecycle.

EDUCATION

University at Albany, SUNY**Expected Graduation: Spring 2026***Bachelor of Science in Informatics | Minor in Computer Science*
